

STRATEGIC AND PERSPECTIVE PLAN

The institution was established with the motive of providing value-based education. The fact that the institution has completed more than 30 years is a testimony to the indelible impression left by the institution in the field of education and it has shown a tremendous growth. If this has to be sustained, the strategies must be formulated and implemented effectively so that the institution shows a progress holistically over the coming years. Keeping in mind the changing demographics and environment, the institution has been working on in the field of teaching, technology and environment.

1. To create student-centric learning environment.
2. To establish Continuous Internal Quality Assurance System.
3. To ensure professional development of the faculty members.
4. To maintain e-Governance.
5. Focus on Collaborative Activities with reputed industries/ To strengthen Placement Cell.
6. To promote research related activities.
7. To initiate green campus programmes.
8. To engage in community service-related activities
9. Continued infrastructure development.
